Talent Development Challenge of the Month

How can we support the transformation of leadership in 2022?

At our March member meeting, we uncovered some interesting thoughts on leadership development - how it's changed since the pandemic and what more we need to do as talent development professionals.

Here's some of our thoughts:

- Develop, deliver effective leadership transition workshop(s)
- Identify & share marketplace data that reflect employees' attitudes, feelings, and motivations regarding effective leadership
- Partner w/HR to provide tools/strategies to improve employee satisfaction & productivity
- Provide many "lessons-learned" during COVID to enhance productivity and improve leadership effectiveness

What are your thoughts?

Share them with us on Slack, [LinkedIn](#), [Twitter](#), or [Email](#).
